Subject: SAJ-2011-00551 Pasco County and Florida's Turnpike Enterprise / Ridge Road Extension / public notice

Flag: Follow up

Hello Cynthia,

I meant to contact you last week. My apologies for not sending this e-mail sooner. A new public notice was published for the Ridge Road Extension project on September 25. I expect that you were notified through our list-serve e-mail. The PDF document is about 23MB, so it exceeds our e-mail capacity. You can download the notice from our website at the following link:

<http://www.saj.usace.army.mil/Missions/Regulatory/Public-Notices/?Page=2>

The file number is "SAJ-2011-00551 (SP-TSH)". It's currently at the top of the page, but will move down the list as new notices are published. If you prefer, I can send this notice to you through the Army's SAFE file exchange website (aka AMRDEC).

The alignment of the road has not changed since the 2011 public notice. Previously, Phase 2 was proposed to be maintained as "limited access" with a connection to only one commercial property on the east side of the interchange with the Suncoast Parkway. The project, as currently proposed, would now allow as many as 7 signalized intersections in Phase 2. The location and any associated wetland impacts have not been specified and Pasco County is not seeking authorization for any additional impacts. Their position is that developers would be responsible for any future impacts for intersections or associated development.

Please let me know if you have questions about the notice or the project.

Respectfully,

Shayne Hayes
